BIRDS-EYE VIEW OF SANTA CLARA COLLEGE

THIS famous institution of learning which is in charge of the Jesuits, has a reputation even in Europe, for the completeness of its equipment and the thoroughness of its instruction. Among its graduates are many of the prominent men of the Pacific Coast. It was chartered with all the rights and privileges of a university on the 28th of April, 1855. With the most complete and appropriate accommodation in every department, and a full staff of professors, the institution offers uncommon advantages for the mental, moral and practical training of young men and boys.

PREFACE.

The evident need of a Handy Block Book of this City in convenient form for the office, library and field, suggested itself from the fact that the only Block Books in use at present are made up in several large, cumbersome and expensive volumes, accessible to the general public only under disadvantages at the City Hall or when favor is extended in the use of private books at the offices of prominent real estate firms.

To meet this want we have undertaken to furnish our patrons a Block Book of the City proper comprising the 50 Vara Survey, 100 Vara Survey, Western Addition and Mission, covering the territory from the Bay on the East to First Avenue on the West, from North Beach and Presidio Reservation on the North to Channel and Twenty-sixth Streets on the South, in convenient size and at a price within the reach of all.

In preparing the maps for this work we have taken the Assessor's Block Books as an official basis, and in connection therewith have carefully consulted other authentic records, correcting the transfers to January 1st, 1894. Knotty problems in the matter of length of lines, private streets, new subdivisions, etc., have been solved by search of the records or direct reference to the owners. Though the work of preparation has been one of magnitude, care and research, we believe we have liberally fulfilled our promises and given to our subscribers a volume unequalled in value as a handy reference to city real estate.
